

ROSE MARIE & ANNA MARIE LUJAN

CONTRIBUTORS/CHEER LEADING ~ Class of 1973 ~ Present

The "twins" as they are known, wrote the book on effort, commitment and participation. Add to that a dose of passion, enthusiasm, and dedication to family, community and College Park and it makes for two fantastic Falcon Hall of Famers.

They both have cheered and supported friends, family and classmates, from Pacheco Elementary days to the present. They are current staff members of the Falcon Foundation a non-profit organization to support College Park athletics, facilities and academic venues impacted by District cuts.

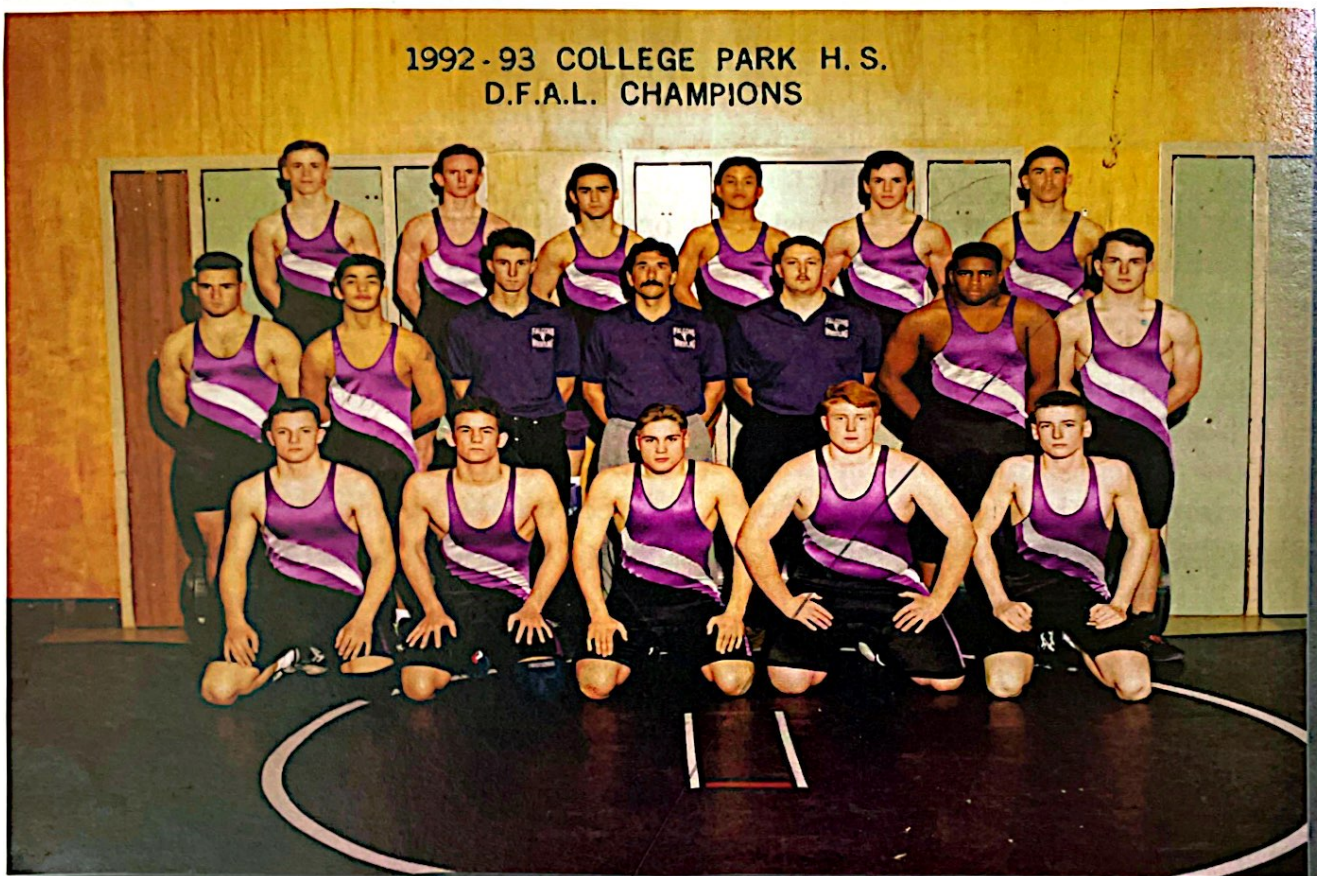

Since 1960 at 5 years of age, while supporting brother Nick as an athlete during College Park's inaugural year, they have cheered for the Purple and White.

In 1969 as freshman, both stayed a course of school and community service, Rose as a cheerleader for 4 years Anna as a song leader for 4 years. Both played on CP's first DVAL softball team, under coach Bev Wasson. One was a Homecoming Queen candidate can you guess which one? Both participated in school plays, kept the "books" during basketball games and were members of the school yearbook.

"They were simply friends to all and Falcons forever"

...Grady Travis, Classmate

WRESTLING TEAM 1992 ~ 1993

1992-93

This was a very talented group of College Park Wrestlers, possibly the best team ever to step on the mat to represent College Park High School. Fourteen out of the fifteen varsity wrestlers were part of a very successful club program centered around Valley View Middle School and the Pleasant Hill Wrestling Club. A majority of the team had developed friendships dating back to elementary school and the chemistry/camaraderie was phenomenal. I never had a problem with the parents or wrestlers and they were always supportive of the coaching staff and the program.

This team accumulated 16 North Coast medals individually, nine of these guys went on to the finals of NCS over their tenure, with eight champions. Those not making the finals, went on to earn six more medals. The team won League, took third in North Coast and finished fourth in the California High School State Wrestling Championships. Casey Strand would make it to the finals for a second straight year, winning his first state title and Elvin Seidenspinner made his name known after taking fourth as a sophomore.

The coaching staff was awesome, we had college All-American's and numerous alumni/coaches working with the team daily.
